Our Experienced and Hardworking Employees

About Us

Delta Rock is a leading company with more than 20 years of experience in the mining field which provides mining equipment, mainly hydraulic drills and drifters, and spare parts.

Taking into account the global economic conjuncture of the 21st century with high-quality services and the synergy created by drilling machines represented in the spare parts industry and international standards, Delta Rock Company aims at becoming a world brand.

What is more, with our dynamic and experienced staff, Delta Rock determines the needs of the sector in hydraulic systems and combines its experience, resources, and expertise.

Additionally, our company offers low-cost solutions to our customers. Also, Delta Rock has produced more than 10,000 products, therefore, we constantly renew our products.

Vision

Determine the competitive conditions of the markets, positioning ourselves as a global benchmark in the manufacturing of mining equipment.

Mission

Being an answer to the needs of our customers through competitive cost solutions with cutting-edge technology.

Our Work

Our company is established as a manufacturer which produces equivalent production the field of mining.

We are mainly producing mining equipment, machines, and spare parts considering the models of well-known brands such as Atlas Copco, Furukawa, Ingersoll Rand, Montabert, Tamrock Sandvik.

We are especially emphasizing in hydraulic drills and drifters. As a company, our main goal is to provide these equivalent products in the domestic and foreign markets with affordable prices to our customers.

*****The brands names are only mentioned to indicate the category of the parts and the type of the machine they can be used for. Delta Rock Company by no means claims to be selling or producing original parts of any brand and/or intends to infringe on other entites' intellectual property rights.**

FREQUENTLY ASKED QUESTIONS

1- IF WE USE YOUR SPARE PARTS ON THE ORIGINAL MACHINES, THE ORIGINAL BRAND CAN CLAIM A COPY RIGHT ?

Usually, the original brands have a guarantee dead line -like 2 years, and if you put any other than their spare parts, the brand warranty is withdrawn.

2- DO YOU HAVE A WARRANTY ?

We have for customized products. Also, our company is willing to make an agreement for special discounts and warranty conditions.

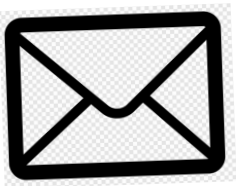

3-ARE YOUR EQUIVALENTS PRODUCTS FIT IN WITH THE ORIGINAL ONE ?

Yes, they fit perfectly.
